

FOREST HILL SCHOOL

MAKING A DIFFERENCE

SPECIALIST SCHOOL IN THE PERFORMING ARTS

## Science Department

The Science faculty is a dedicated team that always strives for excellence. Our goal is to inspire and develop our students into scientists by giving them the opportunity to extend and apply their knowledge to the world around them.

The Faculty pride themselves on having the resources available to support teachers in helping pupils to achieve the best they can and to maximise their potential. We have an outstanding technical department which cater for all three specialisms from KS3-KS5. All the technicians are highly competent and confident in working with teachers to deliver the new practical endorsements and requirements at KS4 and KS5.

We are a very dynamic and diverse group of individuals with broad experiences from the academic field and world of work. This enriches our department and enables us to come together to develop ideas around teaching and learning and most importantly the progress of our students. The department is always outward looking, considering ideas at team meetings, share good practice and always open to taking on new approaches. In addition to having high expectations of students, we always remain open to new challenges as an opportunity to develop ourselves and the students we teach.
