II. Reading Task

Read and summarise the key ideas within the article – ideally in ten points. Create 5 questions relating to both the article and your specification.

50 credits.

<https://www.mnn.com/health/fitness-well-being/blogs/boomers-30-minutes-exercise-will-extend-your-life>

<http://www.independent.co.uk/sport/football/international/harry-kane-england-captain-spurs-tottenham-nutrition-chef-kitchen-2017-goals-a7983456.html>

III. Research Task

Research and find an article which supports or disclaims the ideas in the original article. Write a paragraph to summarise your findings. In this paragraph you must provide a sporting example to support your findings.

30 credits.

IV. Website Task

Website task: Select a website and design a power point presentation you could give to a group of students just beginning the GCSE PE course. Include of each slide key notes you could discuss.

80 credits.

1. http://www.teachpe.com/gcse_health/health_fitness.php

2. <http://www.nutritionist-resource.org.uk/articles/sports-nutrition.html>

V. Long Answer Questions

Choose a longer answer question from the question bank below. Write a response to the question. You must include a plan of what you are going to include, a key word board and your final written answer which is completed in full sentences and paragraphs.

100 credits

1. Using practical examples explain how health, fitness and wellbeing can lead to a person having an improved performance within sport.
2. Discuss the benefits of physical activity on physical, social and emotional health and the consequences of a sedentary lifestyle on these areas.
3. What dietary advice would you give to a male gymnast when following an exercise programme?
4. Explain the importance of a balanced diet. Use sporting examples to show your understanding of key nutrient groups.
5. Describe the process of carbohydrate loading. Explain how this could benefit a sports performer of your choice.

VI. Videos

Produce a video that shows the use of the body in a practical way. The video must include key sporting examples and clear explanations of what is occurring within the video.

Try to include the whole unit topic in one video.

50 credits per topic.

- Healthy lifestyle
- Fitness
- Wellbeing
- Diet
- Nutrition
