

If you have a

new and
continuous cough

or

high
temperature

stay at home for 7 days, if you live alone

stay at home for 14 days, if you live with others, including all household members

Only use **NHS 111** if your symptoms get worse or are no better after home isolation

Stop the spread of coronavirus

**Wash your hands
more often
and for 20 seconds**

Use soap and water or a hand sanitiser when you:

- Get home or into work
- Blow your nose, sneeze or cough
- Eat or handle food

Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze and throw the tissue away straight away

Supervise young children to ensure they wash their hands more often than usual

Posters and lesson plans on general hand hygiene can be found on the eBug website

Clean and disinfect regularly touched objects and surfaces more often than usual using your **standard cleaning products**

Staff, young people and children should stay at home if they are unwell with a new, continuous cough or a high temperature to avoid spreading infection to others

If staff, young people or children become unwell on site with a new, continuous cough or a high temperature **they should be sent home**

We are asking schools, colleges, nurseries, childminders and other registered childcare settings **to remain open for children of critical workers and vulnerable children** where they can
