The challenge is to make sure that you revise at home every single day from now until the start of your exams.

The goal is to make sure that you complete revision every single day over the next 47 days until your exams begin.

1. Work out the minimum amount of time you should revise every day
2. Every time you complete that revision put a tick in the box for that day
3. The aim is to **NOT BREAK THE CHAIN!** This means making sure you complete the minimum amount every day

When you have started you will find it easier to continue!

¹ First whole cohort Exam – Biology P1 – GCSE Drama and other exams happen before

² Last whole cohort Exam – Physics P2 – Further Maths and DT happen after
